Education

Institute of Engineering and Technology

2020 – 2024

Bachelor of Technology - CGPA - 7.6

Lucknow, UP

St Meera's Inter College

2015 – 2018

High School/Intermediate - CGPA - 8.8/8.5

Lucknow, UP

Internship/Experience

Telus International AI Data Solutions

2021 – 2023

Map Analyst

Remote

- Duties include creating maps through **softcopy, web mapping**, or a digital system, development and administration of database management, using **geoprocessing tools** to **locate, extract, manipulate, and analyze** geographic data, and using satellite data to classify land cover.
- Perform **research, offer educated opinions based on reports**, survey land to map for accurate three-dimensional information, and assist with **project management and technical writing**.
- Perform mostly **map-related tasks** that involve evaluating the relevance and accuracy of information.

Brimo Software Solutions(FarziEngineer)

25-Mar-2024 – 25-Sep-2024

Web Developer Associate (Intern)

onSite

- As an intern, I worked closely with experienced **web developers** and contributed to various projects
- I have worked on websites such as **Senses India, Yogabar** and **Mamamor**, ensuring the technical feasibility of **UI/UX designs** and debugg them for maximum performance and **compatibility**.
- Create and maintain **software documentation** and be responsible for maintaining, expanding, and scaling the site.
- Developing and implementing user interface components using **HTML, CSS, JavaScript, Liquid Programming, React.Js, BootStrap,**.

Projects

Notes-Saving App | *React.Js, Tailwind CSS*

- **React for Dynamic UI:** Experience the power of React as we create a dynamic and interactive user interface for taking and managing notes
- **State Management with Redux Toolkit:** Learn how Redux simplifies state management, making it easy to organize and maintain the application's data and functionality.
- **Tailwind CSS Styling:** Dive into the fundamentals of Tailwind CSS to customize the app's appearance and user experience

Google-Gemini App | *React.Js, Tailwind CSS*

- **Chat Interface:** A user-friendly interface where users can send messages and receive responses from the AI.
- **Real-time Response Generation:** The AI generates responses in real-time, providing an engaging user experience.
- **State Management:** Uses React's state management to handle user inputs and AI responses, ensuring a smooth and dynamic chat flow.

Food-Delivery-Website | *MongoDB, Express.JS, React.JS, Node.JS*

- Developed a responsive **Food Delivery Website** using **React, MongoDB, Express, and Node**.
- Implemented features such as **Filter products** by select **Food Name, User Authentication, Payment Validation** and with customized **form validations**, Add to cart, compute total price and display each food item details.
- Used **React Router** standard library for facilitating seamless **navigation with declarative routing**.
- This customer app allows customers to choose their specific selections and customize their order before placing it.

Technical Skills

Languages/Skills: C++, SQL, HTML/CSS, JavaScript/ Data Structure Algorithm, OPPS Concept

Developer Tools/Technologies: VS Code, Replit/ GitHub, Jira, Slack

Achievements/ Extracurricular

- Achieved **4* rating** in C++ at **Hackerrank**.
- Achieved certificate of completion in **Git and Github** from **GeekSter**.
- Achieved certificate of completion in C++ from **Coding Ninja**.
- Solved 500+ Problems on **LeetCode, GeeksforGeeks, CodeChef**.
